

Recycle #	Acronym	Name	Group	Thermoplastic/ Thermoset	Amorphous / Crystalline	Material qualities / properties	Types of products	Typical Brand Name
		Acrylonitrile-Butadiene-Styrene	Styrenes					
		Cellulose-Acetate-Butyrate	Cellulosics					
		Ethalene-vinyl acetate	Olefins					
		High-density polyethylene	Olefins					
		Low-density polyethylene	Olefins					
		Melamine Formaldehyde	Aminos					
		Phenol Formaldehyde	Phenolics					
		Polyacetal homopolymer	Polyacetals					
		Polyamide	Nylons					
		Polycarbonate	Engineering					
		Polyethylene	Olefins					
		Polyethylene terephthalate	Thermoplastic Polyesters					
		Polymethylmethacrylate	Acrylates					
		Polypropylene	Olefins					
		Polystyrene	Styrenes					
		Polyurethane	Urethanes					
		Polyvinylchloride (aka vinyl)						
		Silicone (RTV=room temperature vulcanization)	Silicones					
		Thermoplastic Elastomers (TPE's)	Thermoplastic Elastomers (TPE's)					
		Unsaturated Polyester	Polyesters
