

# MAT 1320 B    Calculus I    Fall 2016

**Instructor:** Dr. Steve Desjardins

**Office:** 585 King Edward (KED), Room 109 D    **Phone:** 562-5800, Extension 3501

**E-mail:** sdesjar2@uottawa.ca

**Website:** <http://mysite.science.uottawa.ca/sdesjar2/1320b.html>. (Note: the website is very important to the course – students are expected to be aware of all material and announcements posted there.) Your grades will appear in the Blackboard GradeBook for this course.

**Office Hours:** Mondays 10:00 - 12:00 and Tuesdays 11:00 - 13:00. Other times may be arranged by appointment.

**Text:** *Calculus: Early Transcendentals* by James Stewart, 8th Edition.

**Lectures:** Mondays 13:00 - 14:30 and Wednesdays 11:30 - 13:00 in MNT 202. Prepare for class by reviewing the material of the previous class and reading the text.

**DGDs:** These are discussion groups on Fridays, led by a graduate student TA. **Attendance is mandatory. The first DGD is Friday, September 16th.** You will have registered for one of several equivalent DGDs:

- 10:00 - 11:30 in MRT 211
- 11:30 - 13:00 in SMD 330
- 13:00 - 14:30 in FTX 137
- 14:30 - 16:00 in MRT 219
- 16:00 - 17:30 in SMD 226

In DGDs, you work through suggested exercises as a group, as well as go over solutions to assignments. Prepare for the DGD by attempting all exercises from the previous week. You should then ask the TA to go over the problems you found difficult. There will also be brief Quizzes given in the DGDs using Lecture Tools (more information to come).

*The list of exercises from the textbook, together with the assignment problems, provide excellent practice for the midterm tests and the final exam, which will consist of similar problems.*

**Midterm Tests:** There are two 80 minute midterm tests, written during the lecture period:

**Test 1:** Week 5: Wednesday October 5th. Covers up to the end of week 4.

**Test 2:** Week 10: Wednesday November 16th. Covers weeks 5 to 9 inclusively.

**Final Examination:** The 3-hour final exam will be scheduled during the exam period (December 9th - 22nd). It will cover all of the material of this course.

**Calculators:** Students will **NOT** be allowed to use calculators on the Quizzes, Tests or Final Exam.

**Calculation of the final grade:** Assignments 10%, DGD Quizzes 10%, Midterm Tests  $2 \times 15\%$ , Final Exam 50%.

Note: if your final exam mark is below 40%, then your final grade will be **F** regardless of other marks. Also, you must write at least one midterm test and most of the DGD quizzes to pass the course.

### Midterm Test Procedures:

- If a midterm is missed for a valid reason, its percentage weight will be transferred to the final exam provided you notify your professor by e-mail *before* the test is written and submit a proper justification (e.g. certificate from UO Health Services) when you return to class.
- Students may not enter after or leave before 20 minutes have passed from the beginning of a test.
- Students must present their student cards if asked.
- Any attempt at copying is treated as a case of academic fraud, as is the facilitation of copying by others. Students must take reasonable care to prevent others from copying their work.
- Any questions concerning marks or the marking must be submitted to the professor within two weeks after the test.

### Assignment Procedures:

**Electronic Assignments** will be completed using a web-based software called Maple TA.

- Your username is *your student number*.
- To get your password, go to [http://aix1.uottawa.ca/~bdionne/teaching/MapleTA\\_en.html](http://aix1.uottawa.ca/~bdionne/teaching/MapleTA_en.html) and follow the instructions.
- Log on to the Maple TA website at <http://place32.placementtester.com:8080/uottawa/login/login.do> (link on website).
- The first assignment is “How does Maple TA work?”. Please log in and complete this assignment to familiarize yourself with the system.
- Please note that server access will be slower during peak times (such as a few hours before the deadline) – **plan ahead and avoid frustration**.

Please note that one assignment mark will be dropped (lowest or missing grade) in the calculation of your final grade.

**Need Help?** In addition to your weekly DGD, the Lectures, and the Professor’s Office Hours, you can get help at the *Mathematics Help Centre*

[http://www.mathstat.uottawa.ca/ugrad/help\\_center\\_en.html](http://www.mathstat.uottawa.ca/ugrad/help_center_en.html).

The Help Centre is located in Marion 021. It is open Monday – Wednesday 10:00 – 19:00, Thursday 10:00 – 17:00 and Friday 10:00 – 15:00. **Because of construction, the Help Centre may be relocated.**

The staff at the Help Centre and the TAs in the DGDs will be pleased to help you solve the practice problems or other problems from the text, but *not problems for the next assignment*. If you have difficulties with an assigned problem, ask for help with a similar problem from the text instead. If you have difficulties with the material presented in the lectures rather than with particular problems, see your professor during office hours or make an appointment.
