Assignment 2

Thomas L'Anglais (8298567)

1. The members of the PEO Council are both elected and appointed. Who elects the members and who appoints the members?

The members of the PEO Council elect new Council members, and then the Lieutenant Governor in Council appoints the new appointed members.

2. What are the main duties of the Canadian Engineering Accreditation Board and the Canadian Information Processing Society.

The Canadian Engineering Accreditation Board's main duties are to evaluate institutions, agencies, and educational programs, so that engineering graduates can have the qualifications to register as a professional engineer.

The Canadian Information Processing Society is the society that governs the Information Technology (IT) profession.

3. a) What type of Engineering License can be granted to an individual who has all the requirements for licensure except the 12 months of Canadian Engineering experience?

You can apply for the Provisional License because the requirement for the Canadian experience is replaced with 36 months of experience outside of Canada.

b) What type of license can be granted to someone who holds an Engineering license in another province?

You can apply for a temporary license.

4. Do Computer Scientists require the ISP to practice? What are the advantages of the ISP?

It is not required to have an ISP in 4 provinces, and the advantages of having an ISP is social/societal standing, and legal reasons.
